Never for Want of Powder May 29 2022 Lavishly illustrated with seventy-four color plates and fifty black-and-white photographs and drawings, Never for Want of Powder tells the story of a world-class munitions factory constructed by the Confederacy in 1862. A large-scale permanent building project undertaken by a government often characterized as lacking modern industrial values. This comprehensive examination of the powder works, five scholars--a historian, physicist, curator, architectural historian, and biographer--bring their combined expertise to the task of chronicling gunpowder production during the Civil War. In doing so, they make a major contribution to understanding the history of wartime technology and Confederate ingenuity. Early in the war President Jefferson Davis realized the Confederacy's need to supply its own gunpowder. Accordingly Davis selected Col. George Washington Rains to build a gunpowder factory. An engineer and West Point graduate, Rains relied primarily on a written pamphlet rather than practical experience in building the powder mill, yet he succeeded in designing a model of efficiency and safety. He sited the factory in Augusta, Georgia, because of the city's central location, canal transportation, access to water power, railroad facilities, and military security from attack. As much a story of people as of machinery, Never for Want of Powder recounts the ingenuity of the inventors involved with the project. A cadre of talented subordinates--including Frederick Wright, C. Shaler Smith, William Pendleton, and Isadore P. Girardey--assisted Rains to a degree not previously appreciated by historians. This volume also documents the coordination of the outflow of gunpowder and ammunition, and Rains's difficulty in preparing for the defense of Augusta. Today a lone chimney on the Savannah River stands as the only reminder of the munitions facility that once occupied that site. With its detailed reproduction

architectural and mechanical schematics and its expansive vista on the Confederacy, Never for Want of Powder restores the Powder Works to its rightful place in American lore.

The Microscope and Its Revelations Aug 20 2021

VW Transporter 1600 Service and Repair Manual Jan 19 2021 This is one in a series of manuals for car or motorcycle owners. Each book provides information on routine maintenance and servicing, with tasks described and photographed in a step-by-step so that even a novice can do the work.
