The Reflexive Nature of Consciousness Dec 26 2019 Combining phenomenological insights from Brentano and Sartre, but also drawing on recent work on consciousness by analytic philosophers, this book defends the view that conscious states are reflexive, and necessarily so, i.e., that they have a built-in, [implicit] awareness of their own occurrence, such that the subject of a conscious state has an immediate, non-objectual acquaintance with it. As part of this investigation, the book also explores the relationship between reflexivity and the phenomenal, or [what-it-is-like] dimension of conscious experience, defending the innovative thesis that phenomenal character is constituted by the implicit self-awareness built into every conscious state. This account stands in marked contrast to most influential extant theories of phenomenal character, including qualia theories, according to which phenomenal character is a matter of having phenomenal sensations, and representationalism, according to which phenomenal character is constituted by representational content. The Tractor Factor Jul 25 2022 With tractor historian Robert N. Pripps, take a close look at some of the most collectible vintage tractors from the United States, the UK, Germany, Holland, France, and other countries. Vintage farm tractors are revered throughout the world as the source of mechanical labor, allowing the revolution of farming to take place in the twentieth century. Some of the most interesting tractors are also the rarest, since they were produced in very small quantities. These include one-of-a-kind modified models; very, very old machines; and models produced by one of the many companies that made tractors for only a short time. The Tractor Factor is a richly illustrated book that reveals what makes a tractor collectible, showcases the rarest models, gives a history of the marque, and details specific finds. Robert N. Pripps, a leading tractor historian, covers models from the United States, the UK, Germany, Holland, France, and other countries. Pripps' expertise, paired with the stunning photography of Ralph W. Sanders and Andrew Morland, makes The Tractor Factor a book no fan of these paradigm-changing machines will want to miss!

Anti-Externalism Nov 24 2019 Internalism about the mind is the view that your thoughts and sensations are constituted by conditions inside your skin. Externalism denies this, and over the past 30 years has become the dominant view in philosophy of mind. Joseph Mendola argues that the externalist theories are false and develops a viable internalist alternative.
