Effective Grading Jul 21 2019 The grading process can yield rich information about student learning. Effective Grading enables faculty to go beyond using grades as isolated artifacts and helps them make classroom grading processes more fair, time-efficient, and conducive to learning. Classroom assessment of student learning can then contribute to departmental and general-education assessment in ways that meet the needs of institutions and accrediting agencies. Tailored to specific needs of faculty members who seek to make grading a valuable part of student learning and motivation, Effective Grading balances assessment theory and hands-on advice. It offers an in-depth examination of the link between teaching and grading and provides concrete guidance on such critical steps as setting and communicating grading standards, developing assignments to grade, managing time spent on grading, and providing feedback for students.
