**Milton: Paradise Lost** Oct 27 2019 Milton's Paradise Lost is one of the great works of literature, of any time and in any language. Marked by Milton's characteristic erudition it is a work epic both in scale and, notoriously, in ambition. For nearly 350 years it has held generation upon generation of scholars, students and readers in rapt attention and its profound influence can be seen in almost every corner of Western culture. First published in 1968, with John Carey's Complete Shorter Poems, Alastair Fowler's Paradise Lost is widely acknowledged to be the most authoritative edition of this compelling work. An unprecedented amount of detailed annotation accompanies the full text of the first (1667) edition, providing a wealth of contextual information to enrich and enhance the reader's experience. Notes on composition and context are combined with a clear explication of the multitude allusions Milton called to the poem's aid. The notes also summarise and illuminate the vast body of critical attention the poem has attracted, synthesizing the ancient and the modern to provide a comprehensive account both of the poem's development and its reception. Meanwhile, Alastair Fowler's invigorating introduction surveys the whole poem and looks in detail at such matters as Milton's theology, metrical structure and, most valuably, his complex and imaginary astronomy. The result is an enduring landmark in the field of Milton scholarship and an invaluable guide for readers of all levels.

[The Scandal of Kabbalah](#) Nov 20 2021 How the Jewish culture war over Kabbalah began The Scandal of Kabbalah is the first book about the origins of a culture war that began in early modern Europe and continues to this day: the debate between kabbalists and their critics on the nature of Judaism and the meaning of religious tradition. From its medieval beginnings as an esoteric form of Jewish mysticism, Kabbalah spread throughout the early modern world and became a central feature of Jewish life. Scholars have long studied the revolutionary impact of Kabbalah, but, as Yaacob Dweck argues, they have misunderstood the character and timing of opposition to it. Drawing on a range of previously unexamined sources, this book tells the story of the first criticism of Kabbalah, Ari Nohem, written by Leon Modena in Venice in 1639. In this scathing indictment of Venetian Jews who had embraced Kabbalah as an authentic form of ancient esotericism, Modena proved the recent origins of Kabbalah and sought to convince his readers to return to the spiritualized rationalism of Maimonides. The Scandal of Kabbalah examines the hallmarks of Jewish modernity displayed by Modena's attack—a critical analysis of sacred texts, skepticism

about religious truths, and self-consciousness about the past—and shows how these qualities and the later history of his polemic challenge conventional understandings of the relationship between Kabbalah and modernity. Dweck argues that Kabbalah was the subject of critical inquiry in the very period it came to dominate Jewish life rather than centuries later as most scholars have thought.

[In the Shadow of the Devil](#) Jul 29 2022 In the Shadow of the Devil is the second adventure in the Coryani Chronicles, a series of adventures that focus on the Romanesque Coryani Empire. From out of the murky centuries, the dastardly works of betrayal and heresy reveal themselves in a flurry of mysterious omens, theft, bloody murder, and open revolt. For a group of adventurers what began as a simple delivery to a prestigious wedding fast becomes a nefarious web of lies. What is discovered unveils subtle clues and tantalizing conundrums that at first seem unrelated to the objective at hand: the return of the stolen Orb of Saint Meritricus. Delve into the mysterious and exotic League of Princes and uncover the terrible secret of Dhakavaar and the Vale of Shadows. This scenario is perfect for Gamemasters seeking to challenge four to six player characters of experience levels 6-8.

[Alienated Wisdom](#) Jul 17 2021 The present study addresses problems of an epistemological nature which hinge on the question of how to define Jewish thought. It will take its start in an ancient question, that of the relationship between Jewish culture, Greek philosophy, and then Greco-Roman (and Christian) thought in connection with the query into the history and genealogy of wisdom and knowledge. Our journey into the history of the denomination 'Jewish philosophy' will include a leg that will lead us to certain declarations of political, moral, and scientific principles, and then on to the birth of what is called philosophia perennis or, in Christian circles, prisca theologia. Our subject of inquiry will thus be the birth of the concept of Jewish philosophy, Jewish theology and Jewish philosophy of religion. A special emphasis will fall on the topic treated in the last part of this study: Jewish scepticism, a theme that involves a philosophical attitude founded on dialectical "enquiry", as the etymology of the Greek word skepsis properly means.

The Theater of Nature Feb 09 2021 The Theater of Nature is histoire totale of the last work of the political philosopher Jean Bodin, his *Universae naturae theatrum* (1596). Through Bodin's work, Ann Blair explores the fascinating and previously little known world of late Renaissance natural philosophy. A study of the text, of its context (through comparisons with different genres of natural philosophy and works entitled "Theater"), and of its reception in the seventeenth century highlights above all the religious motivations, encyclopedic ambitions, and bookish methods characterizing much of late Renaissance science. Amid the religious crisis and the explosion of knowledge in the late sixteenth century, natural philosophy offered grounds for consensus across religious divides and a vast collection of useful and pleasant information, admired for both its order and its variety. The commonplace book provided a versatile tool for gathering and sorting bits of natural knowledge garnered from a wide array of bookish sources and "experience," fueling a vigorous cycle of text-based science at least through the mid-seventeenth century. The miscellaneous genre of the problemata into which Bodin's text was adapted attracted more popular audiences until even later. To place the *Theatrum* in its cultural context is also to reveal more clearly the peculiarities of Bodin's philosophical project in this, its final expression. He combined arguments from reason, experience, and authority to undermine traditional Aristotelian conclusions and proposed instead a natural philosophy based on pious, often biblical, solutions. *Hybrid Hate* Nov 08 2020 Hybrid Hate is the first book to study the conflation of antisemitism and anti-Black racism. As objects of racism, Jews and Blacks have been linked together for centuries as peoples apart from the general run of humanity. In this book, Tudor Parfitt investigates the development of antisemitism, anti-Black racism, and race theory in the West from the Renaissance to the Second World War. Parfitt explains how Jews were often perceived as Black in medieval Europe, and the conflation of Jews and Blacks continued throughout the period of the Enlightenment. With the discovery of a community

of Black Jews in Loango in West Africa in 1777, and later of Black Jews in India, the Middle East, and other parts of Africa, the notion of multiracial Jews was born. Over the following centuries, the figure of the hybrid Black Jew was drawn into the maelstrom of evolving theories about race hierarchies and taxonomies. Parfitt analyses how Jews and Blacks were increasingly conflated in a racist discourse from the mid-nineteenth century to the period of the Third Reich, as the two fundamental prejudices of the West were combined. Hybrid Hate offers a new interpretation of the rise of antisemitism and anti-Black racism in Europe, and casts light on contemporary racist discourses in the United States and Europe.

**Legal Emblems and the Art of Law** Jan 23 2022 The emblem book was invented by the humanist lawyer Andrea Alciato in 1531. The preponderance of juridical and normative themes, of images of rule and infraction, of obedience and error in the emblem books is critical to their purpose and interest. This book outlines the history of the emblem tradition as a juridical genre, along with the concept of, and training in, obiter depicta, in things seen along the way to judgment. It argues that these books depict norms and abuses in classically derived forms that become the visual standards of governance. Despite the plethora of vivid figures and virtual symbols that define and transmit law, contemporary lawyers are not trained in the critical apprehension of the visible. This book is the first to reconstruct the history of the emblem tradition, evidencing the extent to which a gallery of images of law already exists and structuring how the public realm is displayed, made present and viewed.

**Prophecy, Piety, and the Problem of Historicity** Sep 26 2019 Jan Stievermann's pioneering study of Cotton Mather's *Biblia Americana* examines this Puritan scholar's engagement with the Hebrew Bible as

Old Testament. The author focuses specifically on Mather's struggle to uphold or modify traditional typological and allegorical readings in the face of a growing awareness of the historicity of Scriptures. Other key issues include Mather's interventions in the contemporary debates over the legitimacy of Christian interpretations of the prophets, as well as over the authorship, provenance, genre, and spiritual import of texts such as Ecclesiastes and Canticles. Stievermann's book yields fascinating insights into an underappreciated phase of exegesis that was at once traditionalist and innovative, apologetically oriented, pious, and open to new modes of historical-textual criticism. Moreover, it shows how Mather's biblical exegesis fits into the broader development of Puritan theology and identity. --

**Did Jesus "Je[hovah]-salvation" know God's name?** Jun 15 2021 Michael Servetus participated in the Protestant Reformation and translated the Hebrew Bible into Latin. In July 1531, he published his *De Trinitatis Erroribus* (On the Errors of the Trinity) in which he explained clearly that the Trinity was a 3-headed monster. Accordingly, Catholics and Protestants alike condemned him. He was then arrested in Geneva and burnt at the stake as a heretic by order of the city's Protestant governing council. This book was translated into English only in 1932, but still worse, the main arguments from part V were completely distorted. For example he explained that God's name was Iehouah because in Hebrew this name was close to the name of Iesuah (Jesus), or Iehosuah, which means "Iehouah is salvation". He also knew that according to Paulus de Heredia, a Christian Cabbalist, the meaning of God's name was "He causes to be" (yehauueh), but he never confused the pronunciation of God's name with its Kabbalistic meaning (yehaweheh). For Servetus, Iehouah was the only true God.

*Machiavelli* Sep 06 2020 Founders of Modern Political and Social Thought Series Editor: Dr Mark Philp, Oriel College, University of Oxford Founders of Modern Political and Social Thought present critical examinations of the work of major political philosophers and social theorists, assessing both their initial contribution and continuing relevance to politics and society. Each volume provides a clear, accessible, historically-informed account of each thinker's work, focusing on a re-assessment of their central ideas and arguments. Founders encourage scholars and students to link their study of classic texts to current debates in political philosophy and social theory. This launch volume in the Founders of Modern Political and Social Thought series presents a critical examination of Machiavelli's thought, combining an accessible, historically-informed account of his work with a re-assessment of his central ideas and arguments. Maurizio

Viroli challenges the accepted interpretations of Machiavelli's work, insisting that his republicanism was based not on a commitment to virtue, greatness, and expansion, but to the ideal of civic life protected by the shield of fair laws. His detailed study of how Machiavelli composed his famous work *The Prince* presents new interpretations, and he further argues that the most challenging and completely underestimated aspect of Machiavelli's thought is his philosophy of life, in particular his conceptions of love, women, irony, God, and the human condition. Viroli demonstrates that Machiavelli composed *The Prince*, and all his works, according to the rules of classical rhetoric and never intended to found the 'modern science of politics', aiming rather to continue and refine the practice of political theorising as a rhetorical endeavour taught by the Roman masters of civic philosophy. Viroli's Machiavelli, a serious challenge to contemporary methods of doing political theory, will be essential for advanced students of the history of political thought.
