[Daughter of God](#) Jul 24 2022 The Vatican has lost its most closely held secret--irrefutable proof of a woman Messiah named Sophia. Born in the Holy Land in 310 AD, Sophia was known for performing healing miracles. Her divinity threatened early Christian dogma and she was executed as a girl by Church authorities. In the present, Kate Sheridan visits Switzerland with her husband, where she expects to purchase the estate of a German art collector. But before Kate can complete the transaction, they are drawn into a thousand-year-old web of conspiracy and intrigue that begins and ends with the mystery of Sophia--and all the powerful forces who share the objective of protecting their patriarchies from a divinely feminine truth. Komodo Dragons Dec 17 2021 More than twenty years have passed since Walter Auffenberg's monumental *The Behavioral Ecology of the Komodo Monitor*. In the intervening years the populations of Komodo dragons—native only to a handful of islands in southeast Indonesia—have dwindled, sparking intensive conservation efforts. During the last two decades new information about these formidable predators has emerged, and the most important findings are clearly presented here. A memoir from Walter Auffenberg and his son Kurt is followed by the latest information on Komodo dragon biology, ecology, population distribution, and behavior. The

second part of the book is dedicated to step-by-step management and conservation techniques, both for wild and captive dragons. This successful model is a useful template for the conservation of other endangered species as well, for, as Kurt and Walter Auffenberg note, "The species may well indeed survive in the wild for generations to come while countless other organisms are lost."

The Historicity of Jesus Feb 19 2022 The main purpose of the present volume is to set forth the evidence for believing in the historical reality of Jesus' existence upon earth. By way of approach, the characteristic features of more recent opinion regarding the historical Jesus have been surveyed, and, on the other hand, the views of those who deny his existence have been examined in detail. The negative arguments have been carefully analyzed in order accurately to comprehend the problem. - Preface.

Walking to Listen Apr 21 2022 A memoir of one young man's coming of age on a journey across America--told through the stories of the people of all ages, races, and inclinations he meets along the way. Life is fast, and I've found it's easy to confuse the miraculous for the mundane, so I'm slowing down, way down, in order to give my full presence to the extraordinary that infuses each moment and resides in every one of us. At 23, Andrew Forsthoefel headed out the back door of his home in Chadds Ford, Pennsylvania, with a backpack, an audio recorder, his copies of Whitman and Rilke, and a sign that read "Walking to Listen." He had just graduated from Middlebury College and was ready to begin his adult life, but he didn't know how. So he decided to take a cross-country quest for guidance, one where everyone he met would be his guide. In the year that followed, he faced an Appalachian winter and a Mojave summer. He met beasts inside: fear, loneliness, doubt. But he also encountered incredible kindness from strangers. Thousands shared their stories with him, sometimes confiding their prejudices, too. Often he didn't know how to respond. How to find unity in diversity? How to stay connected, even as fear works to tear us apart? He listened for answers to these questions, and to the existential questions every human must face, and began to find that the answer might be in listening itself. Ultimately, it's the stories of others living all along the roads of America that carry this journey and sing out in a hopeful, heartfelt book about how a life is made, and how our nation defines itself on the most human level.

Practical Jinn Magick Sep 21 2019 Jinn Magick is simple to execute, and the results can be some of the best you will find in all occultism. Much has been written about The Fire Spirits, known as the Jinn (or Djinn), but books of practical Jinn Magick are rare. Hardly any exist, and those that do are often a disappointment. This book reveals a practical method for calling on the Jinn and receiving a response. There are forty-two rituals, and the magick can help with influence and passion or destruction and transformation. The rituals deal with reputation and the souring of love. Some rituals affect competition, uncover flaws, weaken others, improve your discipline or make somebody else burn out. Where you feel stuck, you can find release, and there are ways to create more abundance or make somebody else lose what they have. Rituals can create obsessive thoughts in others and make people see the best in you or the worst in another. They can help you seduce or cause somebody to be sexually disgusted by another person. Financial magick works to increase what you have and can make people appreciate your work or make others lose what money they have. There's great potential if you use your imagination. The magick can be subtle and delicate or life-changing and devastating, according to your wish. Most of the rituals can be modified and are directed at clear, practical results. The Jinn are neither angels or demons, but fire spirits, and they execute your magickal wishes with immense power. The magick may only work half the time, but when it does, it works with alarming intensity. The book is expensive, but that's because there's decades of research in here and these secrets should not be given to those who don't value them. Pay a fair price, do the work well, and you will get what you want.

Secret Language of Animals Oct 03 2020 Unlock the secrets behind the behavior of the world's most fascinating creatures? from the Adélie penguin to the plains zebra to the giant panda? in this wonderfully written, beautifully illustrated book. In The Secret Language of Animals, biologist Janine Benyus takes us inside the animal kingdom and shows us the whys and the hows behind the distinctive behavior of creatures great and small in their natural environments. Divided geographically into five sections? Africa, Asia, North America, the oceans, and the poles? the book examines and describes the behavior, body language, and patterns of communication of 20 different animals: the gorilla, lion, African elephant, plains zebra, black rhinoceros, giraffe, ostrich, greater flamingo, Nile crocodile, giant panda, peacock, Komodo monitor, bottlenose dolphin, California sea lion, gray wolf, bald eagle, sandhill crane, beluga whale, polar bear, and Adélie penguin. For each animal, Benyus

describes and explains basic behaviors (locomotion, feeding, drinking, bathing, grooming, sleeping), communication behavior (greeting, social play, group defense, conflict, aggression/submission, fighting, courtship, copulation), and parenting behavior (birth, care and feeding, teaching, communal care). The book is illustrated throughout with tender yet precise line drawings that beckon us to the animals and vividly capture everything from changing facial expressions to nurturing postures to playful and aggressive interactions. The text, too, is both intimate and informative, allowing for a deep connection with, and a great admiration for, each one of the animals.

Steak Jun 23 2022 The definitive book on steak has never been written-until now "Of all the meats, only one merits its own structure. There is no such place as a lamb house or a pork house, but even a small town can have a steak house." So begins Mark Schatzker's ultimate carnivorous quest. Fed up with one too many mediocre steaks, the intrepid journalist set out to track down, define, and eat the perfect specimen. His journey takes him to all the legendary sites of steak excellence-Texas, France, Scotland, Italy, Japan, Argentina, and Idaho's Pahsimeroi Valley-where he discovers the lunatic lengths steak lovers will go to consume the perfect cut. After contemplating the merits of Black Angus, Kobe, Chianina, and the prehistoric aurochs-a breed revived by the Nazis after four hundred years of extinction-Schatzker adopts his own heifer, fattens her on fruit, acorns, and Persian walnuts, and then grapples with ambivalence when this near-pet appears on his plate. Reminiscent of both Bill Bryson's and Bill Buford's writing, *Steak* is a warm, humorous, and wide-ranging read that introduces a wonderful new travel and food writer to the common table.

High Line Nudes Dec 25 2019 From the foreword: "One of the High Line's powers is its ability to evoke time, to remind us of the changes we've experienced during our own lives, to bring forth echoes of the past, and to make us guess what life might be like years from now. I love the photos on these pages, because they have that power, too." --Joshua David, Co-Founder of the Friends of the High Line. Ten Avenues Press, in association with Friends of the High Line, announce the publication of *High Line Nudes*. In 2006, photographer Kevin McDermott took three of his friends up on the abandoned railroad tracks that would become New York City's High Line park to shoot a series of nudes. As McDermott states in his introduction, "at the time I took these photos, what I sought from its beauty was its sense of isolation, being alone, surrounded by nature in the middle of this metropolis." A decade later, this location is now one of the most visited tourist destinations in NYC and one of the largest real estate developments in the world. *High Line Nudes* captures a seemingly impossible, but beautiful moment in the history of the West Side Rail Yards, Chelsea and an ever changing New York City. The cloth hardcover book is beautifully printed in color and rich black and white duotone images.
