What If? 2 Sep 08 2020 AN INSTANT NEW YORK TIMES BESTSELLER! "The questions throughout What If? 2 are equal parts brilliant, gross, and wonderfully absurd and the answers are thorough, deeply researched, and great fun. . . . Science isn't easy, but in Munroe's capable hands, it surely can be fun." —TIME The #1 New York Times bestselling author of What If? and How To answers more of the weirdest questions you never thought to ask The millions of people around the world who read and loved What If? still have questions, and those questions are getting stranger. Thank goodness xkcd creator Randall

Munroe is here to help. Planning to ride a fire pole from the Moon back to Earth? The hardest part is sticking the landing. Hoping to cool the atmosphere by opening everyone's freezer door at the same time? Maybe it's time for a brief introduction to thermodynamics. Want to know what would happen if you rode a helicopter blade, built a billion-story building, made a lava lamp out of lava, or jumped on a geyser as it erupted? Okay, if you insist. Before you go on a cosmic road trip, feed the residents of New York City to a T. rex, or fill every church with bananas, be sure to consult this practical guide for impractical ideas. Unfazed by absurdity, Munroe consults the latest research on everything from swing-set physics to airliner catapult–design to answer his readers' questions, clearly and concisely, with illuminating and occasionally terrifying illustrations. As he consistently demonstrates, you can learn a lot from examining how the world might work in very specific extreme circumstances.

Questions Are the Answer Nov 22 2021 2018 Nautilus Book Awards Silver Winner What if you could unlock a better answer to your most vexing problem—in your workplace, community, or home life—just by changing the question? Talk to creative problem-solvers and they will often tell you, the key to their success is asking a different question. Take Debbie Sterling, the social entrepreneur who created GoldieBlox. The idea came when a friend complained about too few women in engineering and Sterling wondered aloud: "why are all the great building toys made for boys?" Or consider Nobel laureate Richard Thaler, who asked: "would it change economic theory if we stopped pretending people were rational?" Or listen to Jeff Bezos whose relentless approach to problem solving has fueled Amazon's exponential growth: "Getting the right question is key to getting the right answer." Great questions like these have a catalytic quality—that is, they dissolve barriers to creative thinking and channel the pursuit of solutions into new, accelerated pathways. Often, the moment they are voiced, they have the paradoxical effect of being utterly surprising yet instantly obvious. For innovation and leadership guru Hal Gregersen, the power of questions has always been clear—but it took some years for the follow-on question to hit him: If so much depends on fresh questions, shouldn't we know more about how to arrive at them? That sent him on a research quest ultimately including over two hundred interviews with creative thinkers. *Questions Are the Answer* delivers the insights Gregersen gained about the conditions that give rise to catalytic questions—and breakthrough insights—and how anyone can create them.

The Answers Apr 27 2022 NAMED A TOP 10 NOVEL OF 2017 BY THE WALL STREET JOURNAL AND VOGUE, A BEST BOOK OF 2017 BY ESQUIRE, HUFFINGTON POST, POP SUGAR, ELECTRIC LITERATURE AND KIRKUS, AND A 2017 NPR GREAT READ. ONE OF DWIGHT GARNER'S TOP BOOKS OF 2017 IN THE NEW YORK TIMES. A NEW YORK TIMES BOOK REVIEW EDITOR'S CHOICE AND A FINALIST FOR THE CHICAGO REVIEW OF BOOKS FICTION AWARD. "Like Margaret Atwood's *The Handmaid's Tale*, [The Answers] is also a novel about a subjugated woman, in this case not to a totalitarian theocracy but to subtler forces its heroine is only beginning to understand and fears she is complicit with." --Dwight Garner, *New York Times* Mary Parsons is broke. Dead broke, really: between an onslaught of medical bills and a mountain of credit card debt, she has been pushed to the brink. Hounded by bill collectors and still plagued by the painful and bizarre symptoms that doctors couldn't diagnose, Mary seeks relief from a holistic treatment called Pneuma Adaptive Kinesthesia—PAKing, for short. Miraculously, it works. But PAKing is prohibitively expensive. Like so many young adults trying to make ends meet in New York City, Mary scours Craigslist and bulletin boards for a second job, and eventually lands an interview for a high-paying gig that's even stranger than her symptoms or the New Agey PAKing. Mary's new job title is Emotional Girlfriend in the "Girlfriend Experiment"—the brainchild of a wealthy and infamous actor, Kurt Sky, who has hired a team of biotech researchers to solve the problem of how to build and maintain the perfect romantic relationship, cast - ing himself as the experiment's only constant. Around Kurt, several women orbit as his girlfriends with specific functions. There's a Maternal Girlfriend who folds his laundry, an Anger Girlfriend who fights with him, a Mundanity Girlfriend who just hangs around his loft, and a whole team of girlfriends to take care of Intimacy. With so little to lose, Mary falls headfirst into Kurt's messy, ego-driven simulacrum of human connection. Told in Catherine Lacey's signature spiraling, hypnotic prose, *The Answers* is both a mesmerizing dive into the depths of one woman's psyche and a critical look at the conventions and institutions that infiltrate our most personal, private moments. As Mary struggles to understand herself—her body, her city, the trials of her past, the uncertainty of her future—the reader must confront the impossible questions that fuel Catherine Lacey's work: How do you measure love? Can you truly know someone else? Do we even know ourselves? And listen for Lacey's uncanny answers.

Answers in the Pages Feb 11 2021 A bold, timely novel about speaking up and coming out as parents lobby to ban a beloved book from the school curriculum by New York Times-bestselling author David Levithan. When Donovan left his copy of *The Adventurers* on the kitchen counter, he didn't think his mom would read it—much less have a problem with it. It's just an adventure novel about two characters trying to stop an evil genius...right? But soon the entire town is freaking out about whether the book's main characters are gay, Donovan's mom is trying to get the book removed from the school curriculum, and Donovan is caught in the middle. Donovan doesn't really know if the two boys fall in love at the end or not—but he does know this: even if they do, it shouldn't matter. The book should not be banned from school. Interweaving three connected storylines, David Levithan delivers a bold, fun, and timely story about taking action (whether it's against book censors or deadly alligators...), being brave, and standing up for what's right.
